Summary

I'm a positive, team-oriented professional with a unique skill set, combining problem solving skills developed as retail general Manager with 10+ years in business management. I have always had a knack for problem solving and I'm always curious and love to learn, and becoming a developer has always interested me. I'm looking to use my problem solving skills and business management experience as a foundation for a junior developer role that allows me to collaborate with a team and continue to grow my coding skills.

Technical Skills

- **Object Oriented Programming:** Java
- **Web App Development:** HTML/CSS, JavaScript, jQuery, Servlets, JSP, Spring Web MVC, Tomcat
- **Database Programing:** JDBC, table design and creation, SQL queries, PostgreSQL
- **Development techniques:** Agile, Junit Testing, Git, Eclipse, Visual Studio

Education

Tech Elevator – Cleveland, OH

May 2018 – August 2018

Attended a 14-week Java coding bootcamp learned how to develop dynamic web-based software systems using the Java programming language.

Alexandria University – Egypt
